I had the pleasure of visiting and writing about HS Projects *Paradigm Store* in the autumn of 2014 and now I am delighted to tell you about this exhibition of Brazilian artists – Tónico Lemos Auad, Adriano Costa, Rodrigo Matheus and Matheus Rocha Pitta.

HS Projects have great skill in marrying their exhibitions with the venues involved. This one in the Sala Brasil which has themes of trade and travel examines the value of things, including art and reflects a space that has been a centre for shipping (Hamburg America Line, P&O) and trade. Do try and get along and see it – it is thought provoking and fun.
